Financial File Specification

Field Name	Field Definition	Example Output
practice_id	Practice ID	1111
patient_id	Patient MRN	MRN.1111.82440cab-3f8f-4d7b-9e6f-96512016479d
MEDENT_id	Patient MEDENT account#	35
Financial_id	Activity#	139

If financial data is included for export, the practice must select the data points desired for export using the Data Export Module. The fields above will be the first 4 fields in the file and the format selected by the user will define the rest of the file. Fields available can be reviewed and selected in the MEDENT manual here:
https://www.medent.com/htmlmanual/html/v237/asciifieldlistinter.html
The setup should only include fields from History and Activity (HA) in the ASCII Field List.
